Question 4

Complete

Mark 2.00 out of 2.00

Which of the following is not true about a WebView?

Select one:

- ☐ a. You can set an entire Activity's UI to a WebView using setContent(webViewRef) where webViewRef is a valid WebView reference
- ☐ b. By default the only browser functionality a WebView has is to load a specified page
- ☐ c. There are WebView methods to navigate back and forward through browsing history
- ☐ d. Interactive Web apps will not work in a default WebView
- ☐ e. For a WebView to work at all the Manifest file must be coded appropriately
- ☒ f. If you think all of the above are true about a WebView, select this option

Question 5

Complete

Mark 2.00 out of 2.00

In the JSON data format which of the following is not allowed?

Note: each key/value pair in a JSON object is known as a property of the object. So it makes sense to talk about a property key and a property value.

Select one:

- ☐ a. Objects can be nested
- ☐ b. Object property values can be arrays
- ☐ c. Arrays can be nested
- ☒ d. Property values and keys can be any of the JSON data types
- ☐ e. Array elements can be objects
